Subject: Petition 1532/2008
Attachments: Fwd: petition (3.75 MB)

Dear Mr. Nikolov,

the information you submitted to the Committee on Petitions (please kindly note in the letter attached) was forwarded to the European Commission to evaluate the possibility of reopening your petition 1532/2008.

The Commission provided to us the following reply:

The Commission had an EU Pilot opened for this project but did not find any breach of the applicable EU legislation. The information brought by the petitioner is known to the Commission. There is an ongoing court proceeding in Bulgaria before an administrative court, therefore the Commission does not pursue any further investigation. The first phases of the project are funded under OP Transport 2007-2013 and according to the latest information available the first two phases (out of 5) have already been constructed and are operational.

On the basis of the abovementioned information provided by the Commission the Committee on Petitions will not be able to reopen examination of your petition.

Kind regards,

The Secretariat
